### JUDGE GRANTS WRIT OF HABEAS CORPUS

After careful examination of the law on the subject of extradition, Judge McKeown had decided that the papers asking for the return of Will Lawson to Alabama to serve the remainder of his sentence for bootlegging are defective in that the law requires that a copy of the affidavit and indictment must accompany the requisition, neither of which was sent with the papers in this case. He will

discharge Lawson, but under another statute he may still be held until the error can be corrected by the Alabama officials. Lawson, it will be remembered, was arrested at Coalgate.

#### Kenefick Becoming a Live Town.

Kenefick, Okla., Feb. 17.—Kenefick has organized a commercial club and will get busy laboring for the growth of the town. The following named were elected officers: L. R. Fryer, president; G. W. Laffon, secretary and E. S. Matlock, treasurer.

The county commissioners having stated they will approve the petition

of Kenefick for an election on the proposition of incorporating, and an election will be held on Feb. 27. The citizens are anxious for a local self government, there being no opposition to the move.

The board of school trustees have called for an election next Saturday for the purpose of determining whether or not this district shall build a new building, which has been made necessary on account of the congested condition in the other buildings.

Mrs. H. C. Thompson left for Seminole this morning.

### LEGISLATIVE HAPPENINGS

#### LEGISLATIVE DISTRICTING BILLS INTRODUCED; SENATE STAND BY CRUCE IN CAPITOL COMMISSION FIGHT.

Oklahoma City, Ok., Feb. 16.—Apportionment committees of the house and the senate reported tentative bills on Senatorial and legislative districts which, owing to the brief time of the session remaining, will probably be given the right of way.

Nothing has been reported affecting Congressional districts, and will not, it is understood, until congress adopts the ratio. Forty-five senatorial districts are provided for in the bill of today, all having one Senator save Oklahoma county, which is of two districts, each having a senator. Under the past apportionment many districts had two senators.

#### Proposed Districts.

The following are the proposed districts: Ottawa, Craig and Mayes; Cherokee and McIntosh; Pittsburg, Hughes and Coal; Haskell and Latimer; LeFlore, Atoka and Choctaw; Pushmataha and McCurtain; Carter and Love; Marshall and Johnston; Garvin and Murray; Bryan; Pontotoc and Seminole; Pottawatomie, Lincoln, Okmulgee and Wagoner; Creek and Payne; Tulsa, Rogers and Nowata; Noble and Pawnee; Osage and Washington; Garfield, Grant and Kay; Kingfisher and Canadian. Alfalfa and Major; Blaine and Dewey; Woods, Woodward and Harper; Washita and Custer; Beckham, Roger Mills and Ellis; Caddo; Greer and Kiowa; Tillman and Swanson; Jackson and Harmon; Comanche, Stephens and Jefferson; Logan; Grady; Cleveland and McClain; Cimmaron, Texas and Beaver and Oklahoma two districts.

The house apportionment is made agreeable to the automatic provision of the state constitution, all counties securing one representative with their proportionate increases during the five legislative periods during the next ten years, and two representatives are allowed, Bryan, Caddo, Garfield, Grady, LeFlore, Lincoln, Logan, Tulsa, Comanche, Pittsburg and Pottawatomie, Comanche gets three for the third and fourth regular sessions. Pottawatomie gets three for the first, second and third sessions and Pitts-

burg three for all sessions except the fifth. Muskogee gets three and Oklahoma five for the full five sessions. Harper and Beaver form one senatorial district, Cimarron and Texas another with one more each.

#### Anti-Six Shooter Bill.

The The Jones anti-six shooter bill defeated yesterday was revived and passed finally by the House today after an amendment which permits the sale of firearms, but prohibits a display of them being made in a show window, to also prohibit them from being carried, except by peace officers, and they must register with the county clerks. Even state deputy game wardens are prohibited from carrying guns. For the first and second convictions the penalty is a fine from \$50 to \$200 and for the third and subsequent convictions it is two years in the penitentiary.

#### Cruce Scores in Senate

Gov. Cruce scored in the senate today when a committee of that body sent to its death the Durant bill defining the powers of the state capitol commission, by an unfavorable committee report. This action, if sustained by the senate, which is highly probable, since it is in line with the senate's former action in abolishing the commission, means that the body created during the state capital removal fight upon demand of former

view of the public building fund condition as shown by Gov. Cruce's recent message to the senate giving the legislature a balance sheet of the state's finances. They thought the money should be reserved for institutions that were without buildings or needed them badly. Senator Redwine stated that previous legislatures had appropriated out of the building fund \$1,250,000 but that \$697,000 worth of the warrants had found sale.

#### Grandfather Clause Cases.

The state will employ attorneys to defend all persons now or hereafter indicated for enforcing the grandfather clause in elections, according to a concurrent resolution by Senator Roddie adopted by the senate just previous to adjournment. The resolution is in line with that recently passed upon which Gov. Cruce employed Judge C. B. Stuart of McAlester, and extends the scope of that employment. No amount of money was specified, it being left to the governor by amendment of Mr. Hatchett to drive the best bargain possible.

Senator Thompson favored making the limit for all work \$15,000, but that figure was not pressed. A number of the senators expressed themselves against "fancy fees." An amendment by Senator Jones, Republican, who stated that he voted for the grandfather clause, to make the limit \$5,000 lost as did an amendment by Senator Eggerman to designate the Attorney general to do the work. Republicans opposed passage of the resolution.

#### Senate Committee Reports.

Senate committees reported favorably upon the Thomas Bill, requiring death sentences to be carried out in the state penitentiary, the Peter's bill prohibiting roping contests and the Thompson bill prohibiting pools being made or sold on horse races.

A new bill in the house was by Mr. Steen, Mr. Miller of Muskogee and Mr. Maxey, ratifying franchises heretofore granted to street and interurban railways.

#### No Reversal Says West.

It was stated in the attorney-general's office Thursday morning that contrary to a published statement, Attorney-General West did not reverse his opinion in the Swanson county case. On the contrary he has recognized the validity of the supreme court's decision to the effect that the county organization stand until the decision is rendered as to whether the county is legal or not.

### FURNITURE ON EASY PAYMENTS SMITH'S 203-5 W MAIN ST.

Gov. Haskell and the members of which were named before he retired from office, will have to go out of business.

Gov. Cruce recommended that the commission be abolished, and the work of building the state house be placed under supervision of the board of affairs.

A senate committee also reported unfavorably the Clonan bill appropriating \$3,000,000 from the public building fund with which to erect a state house.

#### A. & M. College Bill

After much debate the senate recommended for passage the bill by Senator Jones and Senator Kendrick appropriating \$191,250 for new buildings and equipment at the A. & M. college.

A number of the Senators did not sanction the large appropriation in

#### Status of Scrap in Swanson County.

Oklahoma City, Ok., Feb. 16.—Adj. Gen. Canton was today dispatched by Gov. Cruce to Mountain Park and Snyder with instructions to investigate the state affairs there arising over the Swanson county seat controversy. The governor has received many requests for State militia to prevent further trouble between the contending towns. Gov. Cruce stated today that these telegrams were conflicting and confusing and that he wanted to get the situation as viewed by his personal representative. The governor said tonight: "Gen. Canton is making the investigation alone, and I am expecting that matters will be adjusted satisfactorily. This is the first time I have interfered with the Swanson county matters and I am doing so simply for my own information."

It is understood the Governor's action will be based upon Adj. Gen. Canton's report. John H. Anderson, editor of the Snyder Democrat, who

was here today with a delegation from his town said:

"I do not think there will be further trouble in Swanson county. We desire everything be done in an orderly and legal manner. We have no district court, a condition which you will not find in any other county in the United States. Our chief desire is to secure passage of a bill by the legislature giving us a judicial assignment, and we can then work out our troubles in a legal way."

Attorney General West today denied that he had held that Swanson county is dissolved, but gave the governor an opinion that the county retains its de facto status pending an appeal.

As there is no provision for a juvenile officer in Pontotoc County Judge Barton is making use of some of the delinquents themselves when police duty is required. When it is necessary to summon a boy to his court he simply sends one or two of the others after him.

### C. S. ALDRICH WILL BUILD TWO BRICKS

C. S. Aldrich informs the News reporter that he is figuring on two big brick business houses on the site of his store and the Peay hotel. Both will probably be two stories in height and a credit to the city. This will be an excellent beginning of the building season for 1911.

#### Chickasha Clean-up Day Feb. 28.

Chickasha, Ok., Feb. 16.—The mayor of Chickasha has set apart Feb. 28 as a clean up day. The school children and the business men and the club of the city will join in the clean-up crusade and every alley in the city will be cleaned up.

J. B. Ingram returned yesterday afternoon from a trip to Tulsa and other points in the interest of the oil mill.

#### Recommends Sustaining Eufaula.

Oklahoma City, Ok., Feb. 16.—Judge R. J. Ray of Lawton, referee in the county seat contest between Eufaula and Checotah, in McIntosh county, which case has been in the courts for the last two years, made report of his findings to the supreme court with the recommendation that Eufaula be sustained. The supreme court, however, will act finally in the matter. Eufaula has been the county seat during the time of the contest.

#### LeFlore County Land Sale.

Poteau, Ok., Feb. 16.—Two hundred and forty-nine of the 528 tracts of unallotted lands in LeFlore county, or about 48 per cent, were sold here today. The total price was \$134,595. The highest price offered was \$80 per acre. The land adjoining Fort Smith and some near Spiro, in Arkansas River bottom, brought \$55. A large majority of the land was bought by citizens of this county. The sale closed here and the selling party will be at Antlers Saturday.

"Young Girl Marries an Embelle,"  
is the heading of a dispatch from  
Kansas. As if that were anything un-  
usual for a girl to do.

One of the most reprehensible hab-  
its some of our citizens have is their  
carelessness of speech in public  
places. Some of them may not have  
enough self respect to care if their  
fool language falls upon the ears of  
adies, but in most cases we attrib-  
ute it to gross carelessness. The  
result in either case is the same and  
adies passing along the streets are  
often shocked by the language they  
hear. Of course no blame can be  
attached to our officers. They cannot  
be at all places at the same time,  
and there is no remedy except for  
each man to keep a watch over his  
own tongue.

### Growing Cotton in Oklahoma.

Cotton Seed and Cotton Seed Se-  
lection—If you plant scrub seed you  
will pick scrub cotton. It will pay  
you just as well to secure well bred  
cotton seed as it will to secure well  
bred livestock.

"What variety shall I plant?" The  
cotton plant is susceptible to rapid  
changes in production, in form, in  
resistance to insect enemies and dis-  
eases, etc., brought about by the cli-  
mate, soil, methods of cultivation  
and cross fertilization. A variety  
which may be excellent for rich bot-  
tom land may lose its superior qual-  
ities if grown in a poor, dry soil. A  
variety may score highest one year  
and fall low the following year. A  
variety may produce well in Texas  
but not in Oklahoma, or it may suc-  
ceed in Comanche county and fail in  
Bryan county. In the consideration  
of a variety of cotton the following  
requirements should be met:

1. It should be adapted to your

- local conditions of soil, climate, etc.
2. It should yield a large amount of seed and of lint.
3. It should have fine, strong staple of uniform length.
4. It should be resistant to storms, diseases and insect enemies.
5. It should mature early.

The yield of lint depends upon the percentage of lint to seed cotton and the weight of the cotton seed. Ex-  
perimental results show that large seed of the same variety produce a heavier yield of seed cotton than do small seeds of the same variety.

The number of plants per acre, the number of bolls per plant and the size of the bolls on the plant control the weight of seed cotton. We want a rather early maturing, large balled plant, with a large number of bolls on it. The varieties called Mebane's Triumph, Texas Storm Proof and Cook's Improved have been tested by the Oklahoma Experiment Station and elsewhere in this state and can be recommended.

Be not satisfied with obtaining a good variety but endeavor to constantly improve it by a simple method of selection. Form a definite ideal in your mind or write one out for a plant meeting your demands, then go to the field and carefully select those plants that come nearest filling the requirements. Gather the seeds from those plants and in the proper season plant them, repeating this method of selection year after year until you reach the standard fixed.

A proper soil, properly prepared at the proper time, using modern methods of cultivation with modern tools are essentials of good crop production. Keep up the fertility of your soil by proper methods of crop rotation. Keep up the fertility of your soil by proper methods of crop rotations, green manuring, returning barnyard manure to the fields.

Rotations—I would suggest the following rotations to the Oklahoma cotton farmer:

- I. First year, Corn.  
Second year, Cotton.  
Third year, Oats and cow-peas.
- II. First year, Kafir corn.  
Second year, Cotton.  
Third year, Oats and cow-peas.

If it is desired to introduce alfalfa into the rotation, add about five years to the length of the rotation. Some legume should be worked into the rotation, such as cowpeas and alfalfa and soy beans.

Fertilizers—Commercial fertilizers are absolutely unnecessary in Oklahoma at this time if proper attention is given to green manuring, crop rotations, returning the barnyard manure to the fields, etc.

Plowing—Late fall plowing in November or December will tend in most cases to accomplish the following results:

1. Save moisture.
2. Make unavailable or unusable plant food available or usable.
3. Kill insects.
4. Reduce the cost of preparing the soil and enable the farmer to have a better seed bed for his cotton.

Those who have not practiced fall plowing should plow the cotton field just as early as possible in the spring and form a compact seed bed.

Depth of Plowing—I would not advise plowing more than seven or less than five inches deep. Of course, if the soil has not been plowed over four inches deep it would be unwise to increase the depth more than one inch each year.

Harrowing—In the case of spring plowing the harrow should follow the plow immediately. The proper method would be to harrow during the latter part of the day that land which was plowed during the earlier part of the day. In the case of fall plowing it is best to leave the plowed field unharrowed until early spring just before evaporation commences.

Whether fall or spring plowing is practiced, between the dates of the first harrowing and that of planting, the field should be harrowed every two weeks or ten days, and oftener if it rains.

The seed bed should possess the following characteristics:

1. Compactness, obtained by early plowing combined with careful harrowing and ridging, or bedding.
2. Pulverization, to insure a seed bed wherein the soil particles may come in direct contact with the seeds and second, to insure sufficient capillarity whereby a good amount of moisture will be carried to the seed.
- Ridging—On the Experiment station farm we ridge for cotton about as follows: Make the ridges with a common middle breaker or buster lister, then smooth down the ridges with a board drag, or cross them with a smoothing harrow. This is done sometimes before planting so that the seed bed may become compact before seeding.

Ridge planting is better for Oklahoma. A machine selected for this

work should plant the seed evenly,  
not only in the row but also cover  
them at the same depth. From one-  
fourth to one-half bushel of seed  
seems to be sufficient in any case.

Thinning cotton on upland to 16  
inches with 3 1-2 feet between the  
rows will give the best results. On  
bottom land seldom if ever will it  
pay to leave the plants a distance  
of more than two feet apart.

Cultivation—Cotton is cultivated  
to prevent the growth of weeds, to  
form a dirt mulch, to regulate the  
soil air, to regulate the soil temper-  
ature, and to prevent soil erosion.  
The first cultivation should be com-  
paratively deep if it is ever desired  
to cultivate deep for this crop. Cul-  
tivation should continue through dry  
weather at intervals of about ten  
days until the first bolls mature.  
Though by nature a dry weather  
plant, cotton appreciates moisture  
and responds to summer cultivation.

### HELPFUL HINTS ON

### HAIR HEALTH

Scalp and Hair Troubles Generally  
Caused by Carelessness.

Dandruff is a contagious disease  
caused by a microbe which also pro-  
duces baldness. Never use a comb  
or brush belonging to some one else.  
No matter how cleanly the owner  
may be, these articles may be in-  
fected with microbes, which will in-  
fect your scalp. It is far easier to  
catch hair microbes than it is to get  
rid of them, and a single stroke of an  
infected comb or brush may well  
lead to baldness. Never try on any-  
body else's hat. Many a hatband is  
a resting place for microbes.

If you happen to be troubled with  
dandruff, itching scalp, falling hair  
or baldness, we have a remedy which  
we believe will completely relieve  
these troubles. We are so sure of this  
that we offer it to you with the  
understanding that it will cost you  
nothing for the trial if it does not  
produce the results we claim. This  
remedy is called Rexall "93" Hair  
Tonic. We honestly believe it to be  
the most scientific remedy for scalp  
and hair troubles, and we know of  
nothing else that equals it for ef-  
fectiveness, because of the results it  
has produced in thousands of cases.

Rexall "93" Hair Tonic is devised  
to banish dandruff, restore natural  
color when its loss has been brought  
about by disease, and make the hair  
naturally silky, soft and glossy. It  
does this because it stimulates the  
hair follicles, destroys the germ mat-  
ter, and brings about a free, healthy  
circulation of blood, which nourishes  
the hair roots, causing them to tight-  
en and grow new hair. We want ev-  
erybody who has any trouble with  
hair or scalp to know that Rexall  
"93" Hair Tonic is the best hair  
tonic and restorative in existence,  
and no one should scoff at or doubt  
this statement until they have put  
our claims to a fair test, with the  
understanding that they pay us noth-  
ing for the remedy if it does not give  
full and complete satisfaction in ev-  
ery particular. Two sizes, 50 cents  
and \$1.00. Remember you can obtain

### When the Judge Saw a Great Light.

When he went to a house about  
twenty miles from Wewoka to sum-  
mon a certain man for jury service  
just before the opening of the last  
term of district court, the sheriff of  
Seminole was informed by the wife  
of the man wanted that her husband  
had no time to bother with the old  
court. When he failed to show up  
when court met, Judge McKeown,  
filled with righteous indignation and  
determined to make an example of  
the man who dared to thus show his  
contempt for the authority of the  
court, issued an attachment for the  
jurymen and started an officer out  
after him. It was late at night when  
the fellow arrived. Next morning he  
sought the judge before court time.  
"I'll just make an example of you and  
teach you that an order from this  
court must be obeyed," said the judge  
with his most severe air of offended  
dignity.

"Say, Judge, are you a married  
man," queried the delinquent.  
The Judge admitted that he was  
and demanded to know what that had  
to do with the case.

"Well" it's this way. Do you think  
it is exactly fair to punish a man for  
all the fool things his wife does and  
says?"

The judge scratched his head and  
pondered a few minutes. He finally  
admitted that such a course would  
not always be exactly the right thing  
to do and let the fellow off with pay-  
ing the small amount of costs that  
had accrued.

### Some Trouble of the Governor.

Oklahoma City, Feb. 17.—The du-  
ties of a governor are varied and  
cover a wide range, according to the  
ideas of some of the people who write  
to Governor Lee Cruce, making odd  
and extraordinary requests. The gov-  
ernor receives a large number of  
letters daily from people who think  
he is vested with full authority to  
do whatever they request of him.

One man Wednesday morning wrote  
the governor saying that he had sold  
his land in this state and was going  
to Oregon. Before going, however,  
he said that he would like a little  
keepsake from the governor and asked  
the chief executive to give him  
a gold locket with his picture en-  
closed. He declared himself a great  
admirer of the governor and said he  
would appreciate the gift. He prom-  
ised to wear it on his watchchain if  
his request is granted.

### Man Has Many Grievances.

Another man complains of three  
things. He informs the governor that  
bankers charge too high a rate of  
interest, while doctors' fees are too  
high, and the coyotes are killing his  
calves. If these things are remedied

## It Does Pay to Know The Stores!

So great a part of every income is spent in  
stores, that it would seem that, next to "man-  
kind," "the proper study of mankind is—  
stores!"

To the readers of the ads, the stores take  
on individual characters—they become fami-  
liar—they come to be UNDERSTOOD. The  
value-giving "habits" of each store—and  
the service rendered by each—are known,  
and rightly valued.

The ad-reader knows an exaggerated state-  
ment by an educated instinct; and an ad that  
comes even to the borderland of misrepresen-  
tation is a species of store-suicide.

Every merchant appreciates the NECESSI-  
TY of "making good" every advertised price  
concession—as well as the further NECESSI-  
TY of making price concessions that are real  
enough and notable enough to make the  
store's advertising WORTH answering!

Thus the readers of ads keep in touch with  
ALL buying opportunities in the store of the  
city that make for economy in the home ex-  
penses—and, thus to "know the stores"  
DOES PAY!

## News Publishing and Printing Company

the administration will have done its  
duty he believes. He begs that they  
be attended to at once.

A Kansas man writes the governor  
that he should have a law passed pro-  
viding for the elimination of worth-  
less dogs in the state. He says he  
owns land in Oklahoma and would  
like to raise sheep here but will not  
attempt it until some provision is  
made for getting rid of sheep-killing  
dogs. His sheep are more valuable  
than other people's dogs, he says.

One man from Stephens county  
complains that the neighbors occa-  
sionally take a shot at him, al-  
though he always attends to his own  
business. He asks the governor to  
issue an injunction forbidding the  
neighbors to shoot at him hereafter.

A Snyder man complains that the  
people of the town are dumping the  
sewage into the creek which flows  
through his place. He wants it stop-  
ped and appeals to the chief execu-  
tive for assistance.

In addition to these there are num-  
bers of other unusual requests to  
say nothing of the hundreds of young  
men belonging to country debating  
societies who write the governor ask-  
ing him to write their arguments for  
debates. One letter Wednesday was  
received from a young man who is  
deeply interested in the subject, "Re-  
solved, that whisky kills more men  
than war." He is to debate the af-  
firmative soon and wants pointers  
from Governor Cruce.

### Subsidy Bill in Doubt.

Washington, Feb. 16.—The Gal-  
lenger ocean mail subsidy bill to es-  
tablish lines of steamers to South  
America, Australia and the Orient,  
already passed by the senate, is hang-  
ing in the balance in the house com-  
mittee on postoffices. The committee  
had fixed yesterday for a vote but  
action was deferred, owing to the ab-  
sence of members of the committee  
on whose votes the fate of the bill  
largely depends. These are Messrs.  
Smith of California, Huff of Penn-  
sylvania and Sperry of Connecticut.

### Tegeler Jury Still Deadlocked.

Oklahoma City, Feb. 16.—When the  
jury that has had the fate of Ru-  
dolph Tegeler, charged with murder  
in its hands twenty-four hours, filed  
into the district court at 5:30 o'clock  
and reported to Judge G. A. Brown  
of Mangum that it could not agree,  
Judge Brown told the jury that it  
could have a week or two weeks if  
necessary, in which to reach an  
agreement in the case.

Judge Brown created the impres-  
sion that he will not let the jury  
go from the court room inside of  
two weeks unless a verdict is reach-  
ed. The only intimation that came  
from Judge Brown as to how long  
the jury would be held came in one  
sentence, in answer to an inquiry:  
"We want a verdict."

To buy without having read the ads  
is to proceed on the theory that there  
is no advantage in knowing things,  
over merely assuming them. 270-11

While on his rounds the News reporter found Sherwood Hill busily engaged in making crates for the big strawberries which he expects to raise during the coming season. He figures on a good yield and has promised the reporter all he can eat when they are ripe.

This morning the reporter ran across E. L. Steed just as he was returning to Tupelo and asked when he expected to come back to stay. He said he had been figuring for sometime on coming as soon as the people of Ada would let him come, but when they burn his flour he does not know whether they want him or not. The car that was burned Monday night was consigned to him from Kingfisher.

Yesterday J. D. Lasater purchased an auto in Oklahoma City, and feeling altogether independent of the 3c railroads, decided to pull through the country. He and the agent who sold the machine, left Oklahoma City about two o'clock. They came by way of Purcell and made excellent time until they left Stratford. Mr. Lasater says it had evidently rained more between there and here than on the other portion of the route and as the road is naturally a trifle rough, it was not until 11 o'clock that the car reached Ada. However, Mr. Lasater is well pleased with the trip.

## New Chairs for the Jury.

The county commissioners recently ordered a set of good comfortable revolving chairs for the comfort and convenience of the jurymen who must sit for a day at a time while a case is being heard. They also ordered a lot of plain arm chairs for the lawyers and court officials. The latter arrived and were placed in the jury box yesterday, they being more comfortable than the ones in use heretofore. When the chairs ordered for the jurymen arrive sitting on a jury will not be so bad after all.

The first named are prominent business men of Coalgate and Mr. Greenan has been county treasurer since statehood. They are all very affable gentlemen and made a favorable impression on the citizens of Ada.

## Milas Lasater Gets a Good Position.

Milas Lasater, former insurance commissioner of Oklahoma, who went out of office on January 9, has been appointed state manager of the Equitable Life Insurance company of New York. Mr. Lassater's official title is agency supervisor for Oklahoma. his salary is considerably larger than that of the insurance commissioner-ship; his headquarters will be in Oklahoma City. He has a supervisory charge over all the Equitable business in Oklahoma, the agencies and agents. Mr. Lasater retains all of his Pauls Valley interest, including the controlling stock in the Pauls Valley Democrat, and directorships in the First National bank and Oklahoma State bank there. His future home will be in Oklahoma City.

## Dr. Geo. D. Conger Resigns.

Oklahoma City, Feb. 17.—After two years of active work fighting against the liquor traffic in this state, Dr. George D. Conger Thursday handed in his resignation as superintendent of the Anti-Saloon league of Oklahoma. He will leave about March 20 for Seattle, Wash., where he will take charge of similar work for that state. The headquarters committee of the league has extended an offer to H. L. Sheldon of Chicago to succeed Dr. Conger. Mr. Sheldon is an attorney who has looked after the legislative work of the league, and has made a reputation for his prosecution in certain large cases in Illinois.

Dr. Conger came to Oklahoma City two years ago from Illinois, where he was assistant state superintendent and at once took charge of the affairs of the Oklahoma league.

## Muskogee After Water Supply.

Muskogee, Okla., Feb. 16.—At a special election today Muskogee, by a vote of 5 to 1, decided to issue bonds for \$690,000 for the purpose of doubling the capacity of the present water works plant, building an entirely new sewerage disposal system that will carry the sewage six miles to the Arkansas river and to build a new garbage disposal plant.

Contracts for all these improvements will be let under a commission form of government, which becomes effective April 1.

## STEWART CASE

## BEING ARGUED

The argument in the Stewart murder case was begun last evening, Duke Stone opening for the prosecution. He spoke for about an hour and the court recessed until this morning. On the convening of court he concluded his argument and was followed by Tom Anglin of Calvin for the defense. Robert Roland of Fort Worth, also for the defense, spoke next. Leslie Maxey for the prosecution is speaking as this paper goes to press. J. W. Bolen will follow in a closing argument for the defense and County Attorney Wimbish will close for the state. It is not likely that the argument will be closed until sometime tomorrow.

It is the contention of the state that the killing of Gray was an un-called for murder, while the defense contends that it was purely an act of self defense.

## TWO ARRESTS

## FOR BOOTLEGGING

This morning Jno. and Emmet Sanders, two young men from Fitzhugh, were taken before Judge Barton on a charge of bootlegging. He released them on bond until the next term of court. Will Allen, the constable who arrested them, also captured nearly a barrel of whiskey which is now in the custody of the sheriff. This is said to be the first bootlegging case coming from Fitzhugh and Judge Barton hopes that Fitzhugh will improve along the lines of law enforcement as other parts of the county have.

## Doctor Praises D. D. D.

Although an M. D., I acknowledge to my patients and patrons that your remedy, D. D. D., reaches cases of Ecze-ma and permanently cures them. Dr. Ira T. Gabbert, Coldwell, Kan. ## PRESIDENT COLUMBIA BANK INDICTED

Muskogee, Okla., Feb. 16.—Indictments have been returned by the federal grand jury, in session at Muskogee for ten days against W. L. Norton of Bartlesville and Eugene Blaise of Tulsa in connection with the liquidation of the American National bank of Bartlesville and the failure of the Farmers' National of Tulsa, about eighteen months ago, following the failure of the Columbia bank and Trust company of Oklahoma City.

Seven true bills were returned against Norton, charging false entries in the books of the American national, false reports to the controller of the currency, and misappropriation of funds.

Two true bills were returned against Blaise charging him with making false reports of the Farmers' National's condition and misappropriation of funds. The men were presidents of the banks.

Blaise was placed under arrest here Thursday. Blaise gave \$2,500 bond in each.

The defunct Farmers' National bank of Tulsa on December 14, 1909, following several days' investigation by National Bank Examiner F. W. Bryant, due to the failure of the Columbia bank in Oklahoma City a short time previous, by reason of the fact, it is said, that Norton of the Columbia took the security from behind the Farmers' National paper to protect collateral in the Oklahoma City institution.

## LAST MEMBER OF CONFEDERATE CONGRESS ILL.

Muskogee, Okla., Feb. 16.—Capt. S. B. Callahan, the last surviving member of the second congress of the Confederacy, is dangerously ill at his home here and doctors believe that he cannot recover. Captain Callahan has been, since the death of the late Senator Vest of Missouri, the last member of Jeff Davis' lawmaking body, in which he represented the Creek and Seminole Indian nations. He came to the Indian country in 1833 when the Creek Indians were forced from their homes in Alabama and Georgia to the Indian Territory, now Oklahoma. His father was an Irish architect and his mother a Creek woman.

Captain Callahan became a large holder of negro slaves prior to the civil war and joined the Confederacy as soon as war was declared.

Captain Callahan organized a company of Creek Indians and they joined General Price's army in Missouri. It was one of the companies that formed Price's Indian regiment. In the battle of Pea Ridge it was said that Union soldiers who fell were scalped by the Indians under Price's command, but this has been proven to be untrue.

In 1862 Captain Callahan was elected a member of the Confederate congress. He went to Richmond and remained there nearly a year, returning only to take command of his troops again. When peace was declared the Indian soldiers found their way back from Louisiana to their homes as best they could.

When Captain Callahan went to war he left his wife and two children on his ranch near Okmulgee. He had a good home, a big trading post store, thousands of cattle and horses and his ranch was as much as he chose to occupy. When he returned his wife and children had fled to Texas for their lives, his home and store had been burned and his cattle and horses had been either driven off or killed.

### Parcels Post Convention.

Nashville, Tenn., Feb. 17.—Practically every trade paper of importance in the entire country is in harmony with the purpose of the convention of Southern Merchants to be held in Nashville, February 28, and the three succeeding days, in opposition to the passage of the parcels post law by congress. Among the more prominent journals in line with the purposes of the convention are the American Artisan, Chicago; Merchant and Manufacturer, Nashville; Iron Age-Hardware, New York; Hardware Reporter, St. Louis; Hardware Dealers Magazine, New York; Dry Goods Economist, New York; Dry Goods Reporter, Chicago; Dry-goodsman, Chicago.

Expressions of appreciation have been received by the executive committee from men of national prominence, among them Gov. Woodrow Wilson of New Jersey, Gov. Judson Harmon, of Ohio, Gov. Lee Cruce of Oklahoma, Gov. O. B. Colquitt of Texas and Governor Noel of Mississippi.

Among the commercial bodies that have lined up for the movement during the past week are: Augusta (Ga.) Merchants and Manufacturers Association, Austin (Tex.) Business League, Little Rock Board of Trade, Chattanooga Chamber of Commerce, Frankfort (Ky.) Business Men's Club, Arkansas Retail Merchants Association of Fort Smith.

One of the most interesting features of the gathering, aside from the discussion of the parcels post will be the school of window dressing and decorating, which will be carried on throughout the four days of the convention and will be open to all merchants without cost. The school will be in charge of some of the most successful decorators in the country.

At the last meeting of the committee on entertainment, it was decided to provide some form of entertainment each day especially for the ladies who accompany merchants to Nashville.

### Life Saved at Death's Door.

"I never felt so near my grave," writes W. R. Patterson, of Wellington, Tex., as when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and that I am alive today is due solely to Dr. King's New Discovery, which completely cured me.

Now I weigh 187 pounds and have been well and strong for years." Quick, safe, sure its the best remedy on earth for coughs, colds, la-grippe, asthma, croup, and all throat and lung troubles. 50c & \$1.00. Trial bottle free. Guaranteed by G. M. Ramsey.

## The Best Job Anybody Gets Today Will Be Got- ten Through Want Advertising!

Sometimes the day's "best job" is secured by the want advertiser; sometimes by the answer of a want ad. Almost always it is secured in one or the other of these ways.

The wise work-hunter utilizes both phases of want advertising service. He answers every "likely ad"—and he has his own ad "there" when the employer looks through the "situation wanted" ads.

### THE BEST KIND OF PROTECTION.

• you can give your home is to install electricity. Burglaries seldom occur in homes where an up-to-date electric system is in use. By the simple pressure of a button, you can flood your home with light and no burglar will tarry long where he is likely to be seen. Also an electric burglar alarm system will announce any effort to force an opening. These are only two of the many uses to which electricity can be put to about your home.
